

The two men to get the job done in such a short amount of time, in the heat, in the wooded area, & on a slope is amazing & it came out so nicely! Their work ethic is very impressive, & wonderful. I know there were others here at certain times but for the same two to be here from start to finish is always nice to see. They were both extremely pleasant to talk to & I always felt comfortable with them which is important to me considering I'm here alone most of the time. Honestly if we could have the same crew do all our exterior home work we would be set! I know that's not possible but if everyone in the company is as kind as they are I know we'll be fine.

I don't believe I told you but our son is 7 & he hasn't felt safe since we moved here. He has nightmares & says he hears people outside & feels like someone can get into our home. It's been very difficult for us to try to make him feel safer. He's was very excited to see the fence. We got dressed & went outside to play & the first thing he said was, "Now no one can come into our house & I can be safe!" His other exciting realization was our dog can now run around outside without us worrying he will run away. My son said his dog can be his free dog again & he can run outside with him. It was very nice to see how excited he was & to see him not worry about anything at all but being a little boy hanging out with his dog. Now all I'll have to worry about is how to get them both to come back inside!

Everyone I've met from the company has been very nice. Thank you. I feel like I can't say enough nice things about the work & the people. Please let me know where I can leave reviews, I would honestly be more than happy to leave an essay for everyone to read.

John & I look forward to working with your company for a long as possible.
